

V SCHOOL

values | vision | virtues

An exemplary school with
Montessori way of learning.

ADMISSIONS OPEN NOW

School starts
from June 11th

Age Group:
2.5 to 6 years

OUR ENDEAVOUR

Mother nature grooms a seed by nurturing it in the depths and strengthens it to face the situations when it is exposed to the outside world. Such is our endeavour, to nurture children in the safe and secure envelope of love and care, and guide them into a life filled with positivity, courage, joy, confidence and an ever blossoming inner happiness. V School is an initiative, an idea, a haven where the focus is to make the child equipped with qualities and attitudes that will enhance their creativity, self confidence, create a healthy self esteem in them and get them ready to be the Leaders of Tomorrow.

**V FOR VICTORY, V FOR VISION,
V FOR VALUES, V FOR PEACE
AND V FOR TOGETHERNESS.**

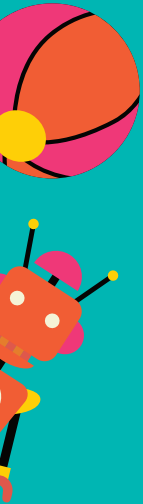

FROM THE FOUNDERS:

“Learn, Earn, Return”

We were always taught by the elders in the family that you must give back, contribute to the land from which you have learnt and where you have earned. V-school is our way of contributing to our land by guiding the children of today and creating a future for tomorrow. All that we need for a new tomorrow is the seed of a new thought, a new way of thinking, living and growing, and the best way is to equip the new generation with the same.

PERFECT FOR CHILDREN AGED 2-6 YEARS

2-6 are the most formative years of a child's holistic development. It is crucial that children are nurtured in an environment that keeps them away from unnecessary pressure and competitiveness, instead focusing on finding their true selves, strengths and inborn talents with calm and ease.

E

resilient citizens.

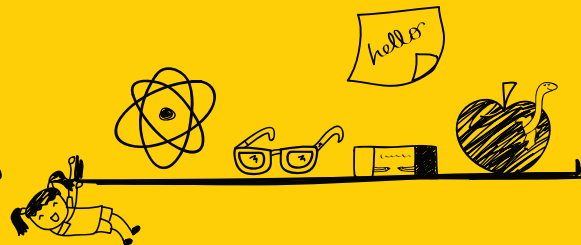

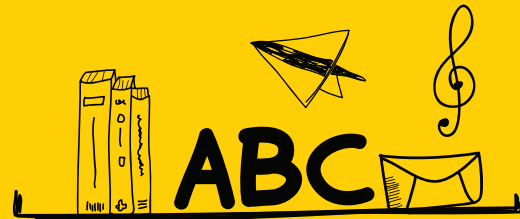

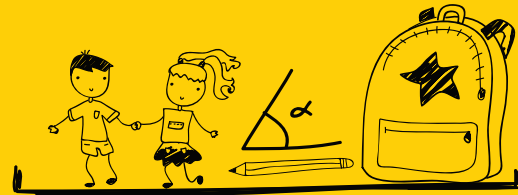

TEACHING METHOD AND CURRICULUM

We primarily follow the '**Montessori**' method of teaching where the focus is more on personal development of a child, rather than grading and exams. Scientific research has found that this method has over the years; brought out more mature, creative and socially adept children. This is also because children of different age groups share the same classes, and are encouraged to collaborate and help each other. Special educational materials are used to keep children interested and there is emphasis on practical life skills. This method focuses on learning through Experiences, developing a sense of Decision Making in children, enhancing their natural talents and interests and mainly not forcing them to be followers but be leaders in their own ways.

We are pleased to share that V-School has gone one step ahead in this endeavour and we have tied up with authors, songwriters, musicians, self-development trainers to design a specialized syllabus through rhymes, stories and music that will help us give the child the correct attitudinal guidance right from the beginning.

Our thought process behind this is to make the child positively strong from within and guide them into thinking in the right way so that it will create subconscious patterns in them helping them remain positive, resilient and self motivated throughout their lives.

VISION

To give them the freedom and the courage to dream, to some day have a vision not only
but also for the world

N

for themselves
and around them.

AREAS COVERED

EPL

Language

Arithmetic

Sensorial development

History

Geography

Science

Creativity

Self Expression

Come you little hands and feet, come and experience this beautiful journey with us.

Come our little angels and let's know our loving world together.

Come, let's wrap ourselves in the warm embrace of Mother Earth and learn from her to look for inner beauty, inner strength and be our best loving selves.

Come, let's splash into the flow of water, sprinkle the colours of joy on one another and dance in the rains of growth & bliss.

Come, let's spread our wings and fly into the open skies, into the pure air, where no boundaries can stop us from dreaming and where even the sky is not the limit.

Come, let's kindle the fire of grit and enthusiasm and march ahead in style.

Come, let's merge into the space within our hearts and know who we truly are.

ACTIVITIES

- Gardening
- Arts
- Music
- Dance
- Indoor and Outdoor Sports
- Meditation
- Visits and field trips
- Inviting professionals from various fields for sessions

VIRTUE

To live with the virtues of respect, gratitude, harmony and develop a sense of responsibility
contribute in creating a new beautiful world

ES

sibility towards society and
autiful future for this world.
